

Safety and Health

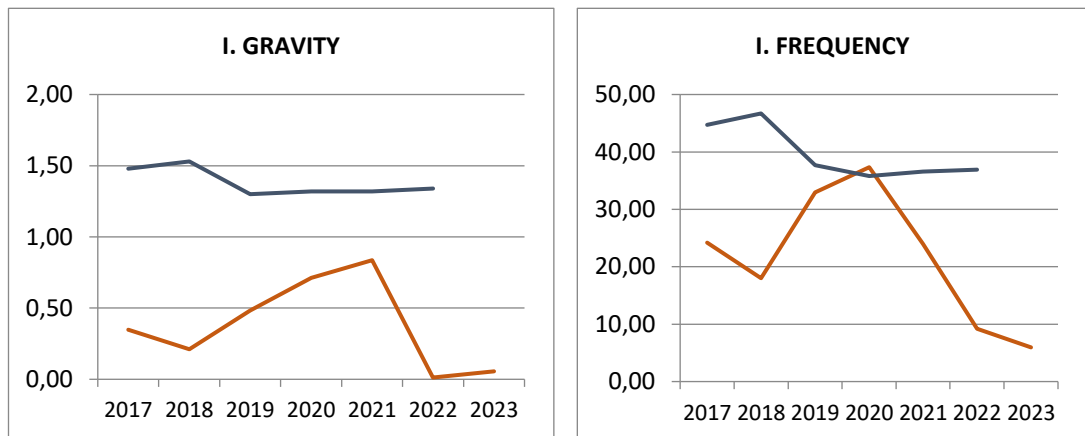

Occupational Risk Prevention is a fundamental and essential pillar in Agefred's Policy. In the sector and social environment where we operate, quality work cannot be understood without prioritizing the safety of our workers.

For this reason, every year the company provides the necessary resources and tools to ensure the safety, well-being, and promotion of the health of Agefred's employees.

In this regard, during the past year of 2023, the results of the actions and investments have been as follows:

- More than 3,000 hours of occupational risk prevention training have been conducted.
- There has been a 52% increase in requests for safe work plans or procedures.
- There has been over a 100% increase in requests for advice.
- There has been more than a 30% increase in the number of visits to construction sites and workplaces.
